● ABOUT MYSELF

With a decade of experience driving productions in manufacturing environments, I am eager to transition my career into the dynamic field of programming.

Throughout my career, I have successfully led cross-functional teams in implementing lean manufacturing principles, optimizing production processes, and delivering innovative solutions. My experience has equipped me with a strong problem-solving mindset and a commitment to continuous improvement.

Programming has always been a passion of mine, and I am excited to apply my newly acquired skills to a professional setting. Over the past few years, I have dedicated myself to intensive study, completing a Full-Stack Web Development program with honors (19/20) and a Python programming course.

My technical skills include proficiency in HTML, CSS, Bootstrap, SQL, Java, JavaScript, PHP, C, and Python, along with experience using frameworks such as Django. AS a freelancer, I have successfully applied these skills to create the Snupe landing page (www.snupe.pt) and develop custom tools and databases for client management, sales tracking, and inventory for Snupe.

I am eager to join a team where I can continue to learn and grow as a programmer. I am confident that my strong work ethic, coupled with my enthusiasm for coding, will make me a valuable asset to your organization.

Thank you for considering my application.

Daniel Almeida

● EDUCATION AND TRAINING

06/2024 – 11/2024 Aveiro, Portugal
PROGRAMAÇÃO EM PYTHON IEFP

Python - Django - SQL - C

Field of study Database and network design and administration, Information and Communication Technologies (ICTs) not further defined, Software and applications development and analysis

Final grade 20 | **Level in EQF** EQF level 4

03/2023 – 11/2023 Remoto, Portugal
FULL-STACK WEB DEVELOPER Codemaster

HTML - CSS - BOOTSTRAP - JAVA - JavaScript - SQL - PHP

Field of study Information and Communication Technologies (ICTs) not further defined, Software and applications development and analysis, Database and network design and administration

Final grade 19 | **Level in EQF** EQF level 4

2007 – 2012 Aveiro, Portugal
ENGENHARIA E GESTÃO INDUSTRIAL Universidade de Aveiro

A comprehensive education that equips graduates with the skills to succeed in any industrial setting.

Our unique focus on data-driven decision making and continuous process improvement sets our EGIs apart in the job market.

Field of study Engineering and engineering trades not elsewhere classified, Food processing, Manufacturing and processing not further defined

Final grade 13 | **Level in EQF** EQF level 6

WORK EXPERIENCE

05/2019 – 11/2023 Barreiro, Portugal

PRODUCTION DIRECTOR BOCO SEAFOOD A/S

Led the relocation of Boco Seafood's operations from Denmark to Portugal.

Built a new management and operations team to launch a novel product.

Developed a strategic market response plan.

Managed import and export operations, including customs clearance processes.

Created production, quality, and maintenance control tools.

Continuously improved product productivity and quality.

Implemented strategies to optimize production processes and reduce costs.

03/2019 – 05/2019 Aveiro, Portugal

TÉCNICO DE LEAN THE NAVIGATOR COMPANY

Implemented process standardization and developed detailed standard operating procedures (SOPs) to improve efficiency and quality.

Created automated reporting tools to track key performance indicators (KPIs) and facilitate data-driven decision-making.

05/2017 – 11/2018 Nuuk, Greenland

MANUFACTURING ENGINEER POLAR RAAJAT A/S

Led layout planning and design projects, optimizing production flow and increasing efficiency.

Conducted capacity planning studies to ensure adequate resources for new product launches.

Developed comprehensive training programs for staff on new products and processes.

07/2013 – 04/2017 Aveiro, Portugal

MANUFACTURING ENGINEER MAR LUSITANO, PRODUTOS ALIMENTARES, LDA

Led the development of new production lines and successfully launched multiple new products.

Implemented lean manufacturing principles to optimize production processes and reduce costs.

Successfully developed new products from by-products, increasing revenue and reducing waste.

09/2012 – 06/2013 Aveiro, Portugal

MÉTODOS E TEMPOS MAR LUSITANO, PRODUTOS ALIMENTARES, LDA

Conducted comprehensive capacity assessments and set production targets to maximize output.

Developed detailed standard operating procedures (SOPs) to ensure quality and consistency.

Implemented process optimization initiatives, resulting in significant cost reductions.

09/2011 – 05/2012 Aveiro, Portugal

ESTÁGIO NO DEPARTAMENTO DE QUALIDADE TEKA PORTUGAL, S.A.

Development FMEAs for products and components to comply with the new ISO 31000 standards.

Improvement reporting templates, communication channels, and organizational methods within the metrology department.
